

# Funding Packages

## Total Budget

€ 616.000

14 Solar Intervention  
+ Environmental Education

16 Environmental Education

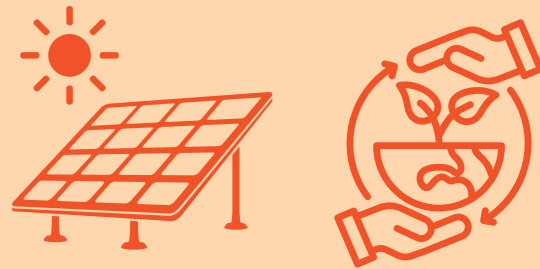

4,5 Energy Officer years

Includes investment in solar infrastructure, education and outreach, training, coordination, and monitoring

## School Solar Intervention + Environmental Education

€30,000

Power a school and inspire lasting change.

€30,000 help provide reliable solar energy together with environmental education, eco-clubs and practical climate action in one school community.

## School Environmental Education

€8,000

Equip students to become climate stewards.

€8,000 strengthen environmental education through workshops, eco-clubs, awareness materials and student-led climate action in one school.

horizont 3000

## Energy Officer 1 Year for 1 Diocese

€15,000

Keep solar expertise in place for one full year.

€15,000 fund an Energy Officer to assess energy needs, plan solar installations, train staff, monitor and repair solar systems to ensure functionality over time.

A young man with a confident smile, wearing a light blue short-sleeved button-down shirt and dark trousers, stands with his arms crossed in front of a school building. The building has a red corrugated metal roof with several solar panels mounted on it. The scene is set outdoors on a sunny day with greenery and a clear sky in the background.
